Stratex Solutions: Tailored to Your Needs

Discover the power of our Stratex suite of solutions, designed to cater to your organization's unique requirements and strategic objectives. Each solution is built upon our robust framework, offering a perfect blend of expertise, process, and technology to deliver optimal results.

Stratex Essentials™ and *Stratex Premier™* provide flexible strategic planning approaches to meet your organization where it is based on specific needs. Is your organizational objective to develop and execute your new strategic plan with an emphasis on optimizing the financial and human resources associated with the administration of the plan? In a world where change is happening rapidly, sometimes the perfect approach is to move forward with agility to work through the plan development process quickly, with a focus on the most critical elements. Or is your organization in a place where organizational, departmental, and individual strategic planning learning is the objective? Are you ready to invest the time and resources to prepare your organization to be able to develop and execute world-class strategic planning approaches independently?

Stratex Essentials & Essentials+

Comprehensive solutions providing a standardized strategic planning framework, emphasizing the efficient use of time and resources for your organization. *Stratex Essentials™* offers expert guidance in developing a strategic plan based on best practices and a controlled scope, ensuring maximum efficiency in resource and time utilization. *Stratex Essentials+™* expands upon plan development to include execution and monitoring, guaranteeing your strategic goals are not only well-defined but also effectively executed and tracked for success.

Stratex Premier & Premier+

Advanced, flexible strategic planning solutions leveraging our proprietary methodologies and offering customized plan development based on in-depth analysis of your organization's needs. The approach focuses on preparing the organization to excel by building exceptional strategic and tactical planning capabilities based on the unique needs of your organization. *Stratex Premier+™*, goes beyond traditional strategic planning development, focusing on building your organization's capacity and capability to effectively manage the strategic planning process in the future.

Stratex Strategic Planning Framework 2.0

Stratex Solutions was founded in 2015 as a result of almost two decades of collaboration between the Founders. They shared a vision to create services and software to enable exceptional organizational outcomes through a focus on strategic planning and performance excellence. Their collaboration leveraged many years of education and service delivery to create the Stratex Strategic Planning Framework, Stratex Ascend (strategic planning software) and Stratex Apex (Baldrige Performance Excellence software).

The Founders created Stratex Solutions to provide unparalleled client experiences for organizations seeking to achieve organizational outcomes beyond typical outdated strategic planning approaches. Contact us to learn how Stratex Solutions can partner with your organization to achieve new performance heights.
